

LEARN-WISE TRAINING: ADOBE CAPTIVATE

FEATURES OF ADOBE CAPTIVATE

Adobe Captivate is a software that is used to build engaging eLearning modules. Use actors, voices, interactions, and quizzes to build your content.

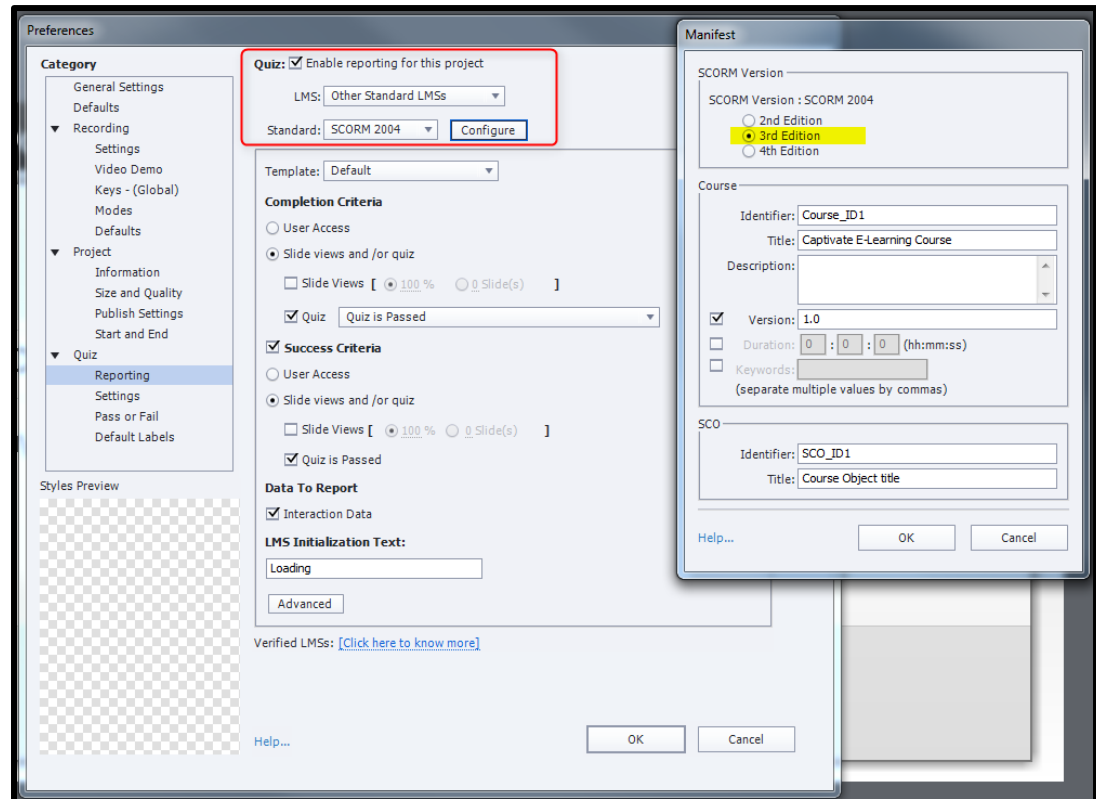

More information can be found on Adobe's website: <http://www.adobe.com/products/captivate.html>

PUBLISHING IN ADOBE CAPTIVATE

How to publish Captivate SCORM content in an LMS: <http://helpx.adobe.com/captivate/using/learning-management-system-lms.html>

Go to File > Publish Settings

SPECIFICATIONS FOR UPLOADING TO LEARN-WISE

UPLOADING INTO YOUR CONTENT/LIBRARY

- Create a topic and upload your Adobe Captivate .zip file as a supplement file
- Expand and select **index_SCORM.html**

UPLOADING AS A SCORM MODULE

- Create a Training Module
 - Under SCORM Module, select **Yes**
 - Upload your file as a .zip file
 - Click **Save**
 - Publish as desired

UPLOADING AS NON-SCORM MODULE

- Create a Training Module
 - Under SCORM Module, select **No**
 - Select Yes for Content
 - Upload the zip file and choose **AdobeCaptivate.htm** as the player
 - Click Save and Assign

Your module will be uploaded to Learn-Wise and you will be able to add a Learn-Wise test, or keep the module as content only.
